Immerse yourself in the captivating universe of game development on NEAR, where your passion for gaming and sports can blossom into groundbreaking projects. Whether you're crafting immersive sports gaming experiences or pushing the boundaries of gaming creativity, this bounty provides the perfect platform to showcase your talent. Unleash your enthusiasm for sports and gaming on NEAR, and become a part of shaping the future of digital entertainment!

About TENAMINT

TENAMINT is launching a Telegram mini-app game designed to elevate fan engagement in sports gaming through a Web3 game that integrates fantasy sports with token rewards. The game offers free sports gaming with rewards, creating a play-to-earn paradigm shift for fans. It fosters a connected social community, allowing fans to engage socially while being only a click away from the game at all times. Players are rewarded for their sports knowledge and participation, with the ability to redeem points for tokens, merchandise, tickets, and more.

About Gaming DAO:

Gaming DAO, a leading entity within the NEAR blockchain ecosystem, stands as a beacon for decentralization and community-driven innovation. As a decentralized autonomous organization, it is committed to nurturing and expanding the NEAR gaming landscape. Governed by three consuls, Gaming DAO fosters collaboration, innovation, and growth within the NEAR gaming community. Developers and gaming enthusiasts are cordially invited to join Gaming DAO in sculpting the future of gaming on NEAR, where their ideas, projects, and passion build towards the future of gaming.

Exploring Themes:

Here are some blockchain gaming themes that may ignite your creativity, but don't hesitate to venture beyond these:

1. **Token-based In-Game Rewards:** Design an engaging blockchain game where players earn tokens for completing tasks, unlocking new game features, characters, or items for an enhanced gaming experience.
2. **Decentralized Item Marketplace:** Establish a secure marketplace where players can trade in-game items using blockchain technology, fostering a vibrant ecosystem for buying, selling, or swapping items.
3. **Proof of Gameplay:** Develop a game that transparently records players' achievements and high scores on the blockchain, rewarding their performance and fostering a competitive spirit.
4. **Blockchain-based Voting System:** Create a game where players actively participate in voting on game updates or new features using blockchain-based tokens, empowering the community to shape the gaming experience.
5. **Asset Ownership Tracking:** Craft a game where players collect unique digital assets stored on the blockchain, allowing for secure ownership, trading, or transfer between players.
6. **Blockchain-based Gaming Tournaments:** Host thrilling gaming tournaments where participants compete for cryptocurrency prizes, ensuring fairness and transparency through smart contracts.
7. **On-Chain Fantasy Sports:** Envision a fantasy sports platform directly integrated with the blockchain, enabling players to manage their teams, track real athlete performances, and earn tokens based on their success.

All Gaming Genres Welcome:

Whether your passion lies in sports gaming, board games, RPGs, action-packed adventures, classic favorites, word games, or beyond, the possibilities are limitless. Let your imagination run wild and embark on a journey to redefine the future of gaming on NEAR!

Judging Criteria

- **Ingenuity and Creativity:** Show us your flair! Judge novelty, innovative approaches, creative technology use, and uniqueness in problem-solving.
- **User-Centric Design:** Evaluate user experience and design, focusing on usability, aesthetic appeal, accessibility, and interface intuitiveness.
- **Development Quality:** Assess completeness, including readiness for submission, bugs, feature completion, overall polish, readability, structure, maintainability, naming conventions, modularity, use of best practices, and documentation.
- **Ecosystem Impact:** Dive into the NEARverse! Evaluate the project's impact within its ecosystem, such as solving real problems, filling market gaps, or enhancing existing solutions.
- **Sustainability and Growth:** Consider the project's sustainability and growth potential. Whether it's a flash in the pan or a slow burn, assess how you see the creation evolving over time.
